## **RE: PVC PRODUCTS - PRICE AND SUPPLY UPDATE**

Dear valued customers, colleagues, and friends,

As you will be aware, we have implemented a number of price increases on our PVC products (conduit, bends and fittings) over the first quarter of this year.

This is due to several factors including:

- Worldwide supply shortages of PVC resin
- Increased shipping costs
- Manufacturing at capacity due to unprecedented demand

We are in regular contact with our suppliers and it is likely we will see further significant price increases in the coming months and possibly supply shortages.

We regret having to pass on these increases and are doing everything we can to avoid disruption to supply. We appreciate your ongoing support and understanding during this unprecedented time.

Kind Regards

Paul Smith  
Director  
Underground Civil Supplies
